

Purpose: Adding, editing supplies to the PD

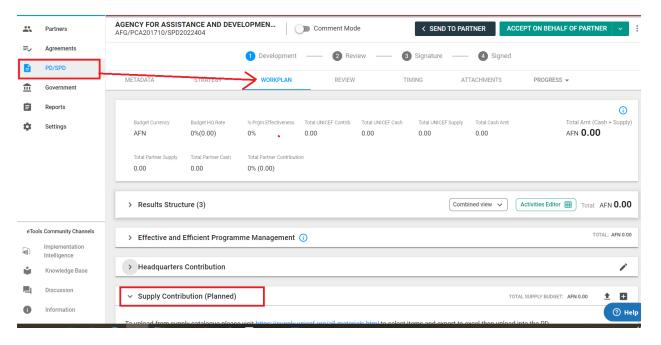

Who: UNICEF and Partner Programme Document Focal Point

**When:** A user wants to add supplies that will be required during the implementation of the programme document.

A link to the supply catalogue has been included to ease estimation of supply costs and identification of different supply specifications

Access the supply contribution (planned) section in the WORKPLAN section of the ePD.

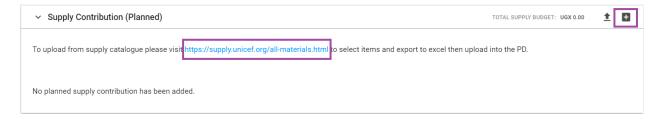

**Step 1:** Go to the supply contribution (planned) section

**Step 2:** To include supply items in this section, either select the URL "<a href="https://supply.unicef.org/all-materials.html">https://supply.unicef.org/all-materials.html</a>" to the supply catalogue hosted by UNICEF Supply Division (SD) or the press "+" icon.

Knowledge: The supply catalogue contains Standard materials i.e. "S" materials with clear specifications only includes standard items that are specified.

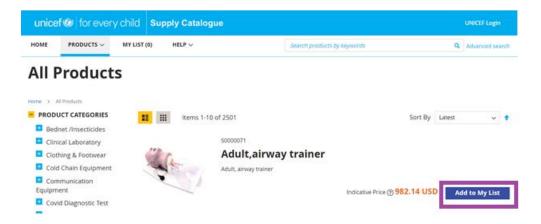

Step 3: Search for items using either the products categories list of the search

**Step 4:** This will display the relevant supplies, identify the item required, considering the specifications and indicative price. This price does not include charges for freight. Select "add to my list" button.

Step 5: To review the selected items, click my list. Click "My List"

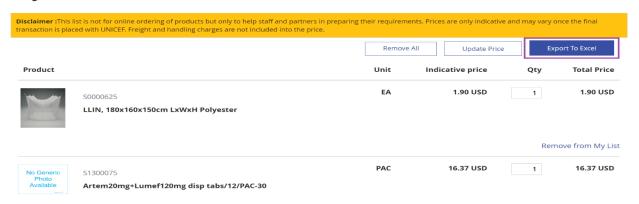

**Step 6:** You can "login to UNICEF staff", or "continue as guest" for CSO partners. Select do not show me again if several items are required for the plan.

Step 7: On the next page click to "export to excel" to further edit the list.

#### My List (2)

Step 8: In the exported excel:

- edit the quantity to match the PD requirements,
- adjust the indicative price to change it to the local currency or currency of the PD,
- calculate the total price.

Save the report.
