

Release Notes 7.10 (November 2019)

General

Enhancements:

1. Country workspaces now selectable by typing in the first letter of the CO

Action Points

Enhancements:

1. Name of assignee now appears when splitting the action point by section

Dashboards

Enhancements:

1. In the HACT dashboard the blocked/deleted partners are now viewable in the HACT assurance list and chart

Financial Assurance

Enhancements:

1. Any UNICEF User can now add an action point to an engagement in FAM
2. Filter for year and month created for engagements
3. E-mail notifications are now only sent to staff that created an engagement in a CO and not all Audit Focal points

Bug fixes:

1. Error where PD/SSFA details in Partner details section went missing when refreshing page is now fixed
2. Unnecessary scroll bar in specific dialogue boxes removed
3. Save icon no longer appears after engagement is finalized

Partnership Management

Enhancements:

1. The number of disaggregations that can be added to an indicator is now limited to 3
2. E-mail notification to partner Authorized Officer(s) is now sent when an amendment is added to the PD/SSFA
3. Reporting requirements can now be added to contingency PDs

Bug Fixes:

1. Hard refreshes are no longer required when an attachment is deleted to remove the duplicate attachment error
2. Unnecessary scroll bar in specific dialogue boxes removed
3. Spaces are now displayed between files when multiple files are uploaded from PRP to sync with PMP
4. Authorized officers from previously selected agreements are no longer automatically selected when signing new agreements
5. Spelling errors in Results Reported tab in the reports section now corrected
6. Character limitation removed when adding the title of a partner organization's staff member
7. Display issues moving the status of PD/SSFA to the bottom of the page now fixed

Trip Management

Enhancements:

1. The city is now added to the partner drop down name
