

eTools Implementing Partnership Coverage Dashboard

The eTools [Implementing Partnership Coverage Dashboard](#) allows all offices to easily monitor the adoption status of each of the 5 mandatory eTools modules-as per the [June 2020 communication](#) from DED Programmes, Omar Abdi. The new Dashboard is an improvement on an earlier version that only monitored PMP adoption status. It can be accessed by UNICEF personnel at any time in the [inSight Global Dashboard](#), under the HACT tab.

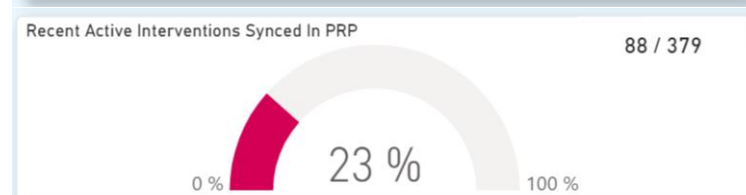

The calculation method for each coverage area in the dashboard are included below:

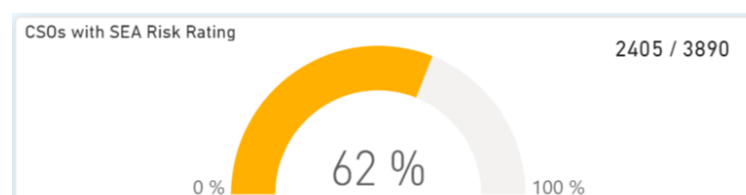

Calculation Method: CSOs in UNPP having a corresponding VISION vendor number/ CSOs in Vision that received a cash transfer in the last 12 months

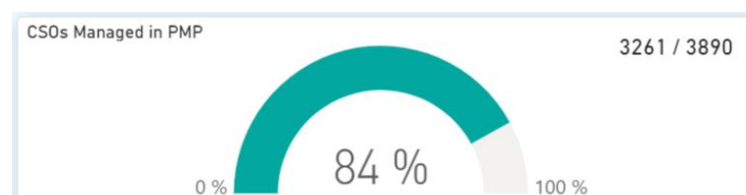

Calculation Method: Interventions in PMP with a start date in the last 3 months and “Active” status having corresponding UNPP Reference Number

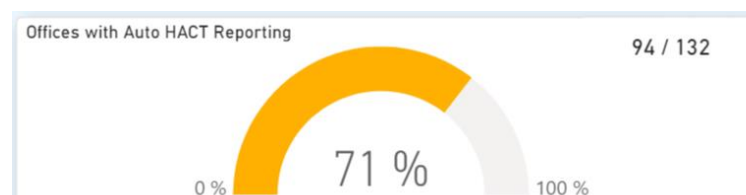

Calculation Method: Interventions in PMP with a start date in the last 3 months and “Active” having corresponding reporting requirements synced with PRP

Calculation Method: CSOs in Vision having a SEA risk rating/ CSOs in VISION that received a cash transfer over the last 12 months

Calculation Method: CSOs having an intervention (Active, Ended or Closed) in PMP/ CSOs in VISION that received a cash transfer in the last 12 months.

Calculation Method: Offices that have turned on the automated quarterly HACT reporting via eTools using TRIPS, Third Party Monitoring and Financial Assurance modules.
